OBJECTIVE

I'm a Software Engineer with over 2 years of experience in full-stack web development. I enjoy building software that is simple, reliable, and easy to use. I am passionate about solving problems and finding efficient ways to make applications work better. I keep learning new technologies and tools to improve my skills and turn ideas into real, practical solutions that can make a difference for users and businesses.

EDUCATION

Bachelor of Science in Software Engineering, GC University Faisalabad 2021 - 2025
Specialization: Software Development — CGPA: 3.06/4.00

- **Key Modules:** Analysis of Algorithms, Software Design & Architecture, Database Systems, Operating Systems, and Distributed Systems.

Higher Secondary School (ICS Computer Science), Graduate College Faisalabad 2019 - 2021
Board: BISE Faisalabad Percentage: 87%

Secondary School Certificate (Matriculation), Govt. City Muslim Higher Secondary School 2017 - 2019
Science (Math, Physics, Chemistry, Computer Science) Percentage: 91%

SKILLS

Programming	JavaScript (ES6+), Python (Intermediate), SQL, HTML5, CSS3
Frontend	React.js, Next.js, Tailwind CSS, Bootstrap
Backend	Node.js, Express.js, RESTful APIs
Databases	MongoDB, MySQL
Tools	Git, GitHub, Postman, Figma
Languages	English (Fluent), Urdu (Native), Punjabi (Fluent)

PROFESSIONAL EXPERIENCE

MERN Stack Trainee / Intern August 2023 – June 2024
Softwiz Solutions and Institute *Faisalabad, PK*

- Completed intensive hands-on training in full-stack web development using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Assisted in developing frontend components and integrating RESTful APIs under senior developer supervision.
- Gained practical exposure to version control, debugging, and collaborative development workflows.
- Strengthened problem-solving skills through guided practice projects and real-world development tasks.

CLIENT-BASED WEB PROJECTS

Wix | July 2024 | Remote

Construction Services Company (USA) [\[Link\]](#)

- Developed a business website using WordPress based on client requirements.
- Customized layout, content structure, and basic plugins.

Medical Billing Service Company (USA) [\[Link\]](#)

WordPress | Jan 2025 | Remote

- Created a service-oriented website using Wix according to client specifications.

- Implemented responsive layout and organized service content.

ACADEMIC AND PRACTICE PROJECTS

Learn Wise – Learning Management Platform

[\[Link\]](#)

Tech: Next.js, shadcn/ui, PostgreSQL

- Developed a full-stack learning management system allowing users to browse and manage online courses.
- Implemented user authentication, course management features, and payment functionality.
- Built reusable UI components and integrated backend services for data handling.

Idea Script – Real-Time Idea Management Application

[\[Link\]](#)

Tech: Next.js, ShadeCn-UI, Clerk Auth

- Built a real-time application for organizing and managing user ideas with live data updates.
- Implemented authentication and state management for seamless user experience.
- Focused on modular frontend structure and efficient data handling.

Medical Billing Website

[\[Link\]](#)

Tech: React.js, Tailwind CSS, TypeScript, Framer Motion

- Developed a responsive medical billing interface for managing appointments, services, and patient-related information.
- Designed a clean, user-friendly UI with modern frontend practices.
- Emphasized component-based architecture and maintainable code structure.
